

Equal Groups

There are 5 groups with the same amount in each group.
They are equal groups.

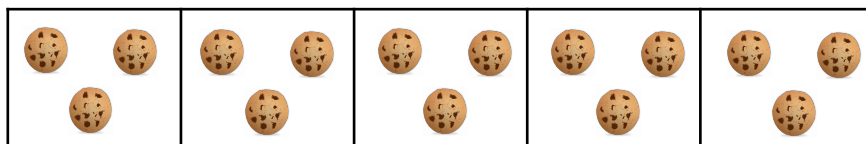

Equal Groups

$$5 \times 3 = 15$$

There are 5 groups with the same amount in each group.
They are equal groups.

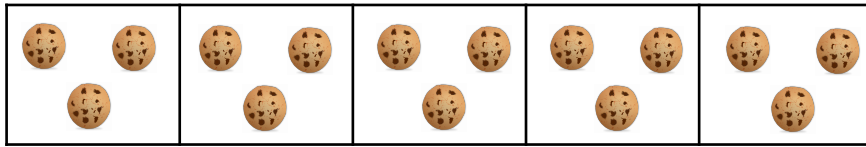

Repeated Addition

$$3 + 3 + 3 + 3 + 3$$

Adding the same number again and again.

Repeated Addition

$$5 \times 3 = 15$$

$$3 + 3 + 3 + 3 + 3$$

Adding the same number again and again.

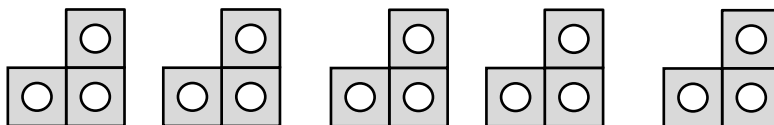

Multiplication Symbol

We use this symbol show we are **multiplying**
(adding equal groups of numbers).

Multiply

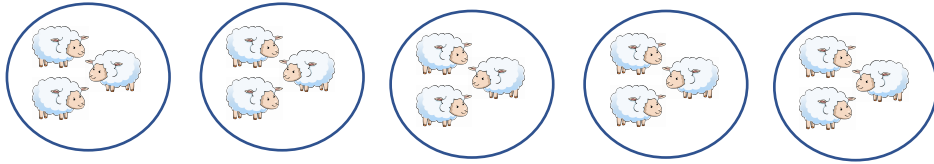

To add equal groups of numbers.

$$5 \times 3 = 15$$

There are 5 lots of 3s.

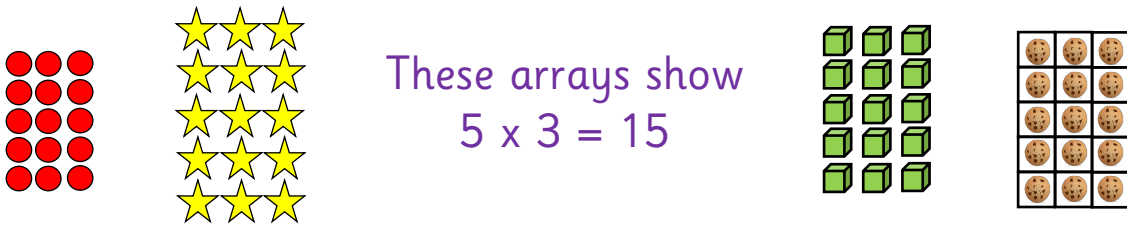

Lots Of...

There are 5 lots of 3s.
This helps us write our multiplication sentence.
5 lots of 3 is the same as 5×3

masterthecurriculum.co.uk

Arrays

These arrays show
 $5 \times 3 = 15$

Arrays are objects or shapes in rows and columns.
They help us to multiply.

masterthecurriculum.co.uk

Commutative Law

When you multiply numbers, you will get the same answer when you swap them around.

$$5 \times 3 = 15$$

$$3 \times 5 = 15$$

masterthecurriculum.co.uk

Two Times Tables

Repeated addition in groups of 2s.
We should learn our 2 times tables up to 12×2 .

 $1 \times 2 = 2$

 $2 \times 2 = 4$

 $3 \times 2 = 6$

 $4 \times 2 = 8$

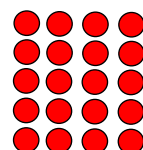

Five Times Tables

Repeated addition in groups of 5s.
We should learn our 5 times tables up to 12×5 .

 $1 \times 5 = 5$

 $2 \times 5 = 10$

 $3 \times 5 = 15$

 $4 \times 5 = 20$

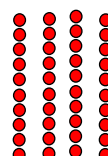

Ten Times Tables

Repeated addition in groups of 10s.
We should learn our 10 times tables up to 12×10 .

 $1 \times 10 = 10$

 $2 \times 10 = 20$

 $3 \times 10 = 30$

 $4 \times 10 = 40$

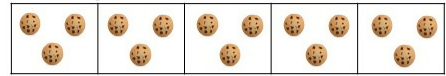

Equal Groups

There are 5 groups with the same amount in each group.
They are equal groups.
