

Inspiring and Influential

Mathematicians

This feature will celebrate the lives and achievements of a diverse group of mathematicians, explaining how they have inspired us and posi-

Where's the maths?

Everybody uses mathematics in their life but sometimes they don't call it mathematics. Developing 'Maths Eyes' allows us to see the different types of mathematics that we are doing or seeing everyday and encourages discussion and language development around mathematics.

This feature will use an everyday image and encourage the children see the maths learning that can be taken from it.

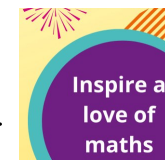

House points will be awarded to children who give Mrs Arrow three concepts of

Maths at Guildhall Feoffment Primary School

Marvellous Maths

This feature will be filled with fun maths facts, inspirational quotes or celebrate special moments or achievements in maths lesson.

Exploring Maths Through Stories

Maths in Stories

Teaching maths through stories and picture books can be a powerful tool to support children's learning of mathematical concepts and language development.

There are many benefits to this approach such as boosted engagement, development of vocabulary and the application of skills and knowledge into new contexts. Each month this newsletter will fea-

KS2 Maths Challenge

Each month a different maths challenge will be set to enable the children to practise their reasoning and problem solving skills based on real world events or events in the school calendar.

The challenges will be pitched at different levels, but it is hoped that even if a bit tricky initially, with a little talk and collaboration with parents and carers at home, then the children will achieve success.

There will be house
